

Safety shoe with Aluminium toe cap

4 widths available – for optimal fit

Protection class EN ISO 20345:2011 S1 SRC

VD PRO 1010 ESD
Art.-no.: RSVDPRO1010SER

VD PRO 3070 ESD
Art.-no.: RSVDPRO3070SER

Features:

- Light-weight microfibre combined with perforated design for optimal ventilation
- Velcro fastening strap
- Shaft applications
- Aluminium toe cap
- Breathable, functional lining
- Leather insole
- Comfort insole ERGO-SOFT ESD
- VARIO Multiflex[®] Technology (cushioning)

Sizes: 36 – 50

Widths: NB, XB (S, XXB)

Outsole (TPU Athletic ESD, slate grey):

- Outsole with a profile of 3,5 mm
- Extended bend protection, reduced lever arms
- Supports the natural movement
- Light-weight and flexible
- Best possible scuff resistance and anti-slip properties
- Heat-resistant up to appr. 120°C

Cushioning – VARIO Multiflex[®] Technology:

Safety shoes, which have less influence on the natural movement of the foot are lever arm reduced. Lever arms in particular may cause diverse movement disorders. Lever arms of the shoe force the foot to make unnatural movements and can lead to foot and Achilles tendon complaints, knee pain and back problems. Furthermore, lever arm forces can increase the risk of injuries such as sprained ankles.

The replaceable, weight and pressure dependent **SECURA VARIO®** heel shock absorption system ensures cushioning adapted to the individual needs of the wearer. The pressure load in the shoe is reduced to a natural extent and provides targeted relief to the back. At the same time, the weight dependent SECURA VARIO® heel shock absorption system helps to significantly reduce fatigue and increases the ability to compensate pressure loads by the leg and trunk musculature.

Lever-arm reduced soles and shoe made by VARIO Multiflex® are characterized by lower heel height, increased immersion depth, softer material and lower sole thickness, which is rounded in the edge areas.

Size (Paris stitch)			Foot length	Foot width						
Men	Women	UK		S	NB*	XB	XXB			
	35	2	217 mm	85 mm	88 mm	91 mm	94 mm
